Positions Report to: Instructional Leadership Team

Start/End Date: 2021 - 2022 School Year

Hours: 7:40 am – 4:15 pm + some out of school time responsibilities

Compensation: East Harlem Scholars Academies offer a comprehensive benefits package.

FLSA Status: Exempt

Who We Are

East Harlem Scholars Academies are community-based Pre-K to 12 public charter schools operated by East Harlem Tutorial Program (EHTP). EHTP began in 1958 as a children's reading group and has since grown into a multi-site after-school program for traditional public school students and a network of public charter schools focused on significantly increasing the college graduation rate in East Harlem. We are on track to serve at least 25% of East Harlem students by 2025, with enrollment for this year at approximately 2200 students in our schools and after school programs. In 2020, 99% of our seniors were accepted to college, and our current scholars in college are on-track to graduate at eight times the national average of their peers.

At EHTP we also aim to serve as an agent of change and thoughtfully contribute to the national fight for racial equity. Through our organization-wide commitment to anti-racism work, we prepare our scholars to effect change, challenge the status quo, and thrive in the world around them. As staff members, we face our own racial identities and conscious and unconscious biases. With this in mind, all of our professional development, curriculum, organizational materials, and processes are designed with a goal of racial justice. Read our racial equity statement [here](#).

We ground all of our work in racial equity, [in our core values](#), and in our four guiding pursuits: the Revolutionary Pursuit of Love, the Radical Pursuit of Knowledge, the Responsive Pursuit of Healing, and in the Relentless Pursuit of Results. These pursuits inform and are reflected in our current four key strategic priorities: to increase high-impact, high-quality academic curriculum, programming content, staff capacity, and coaching; to embrace and advance our use of technology; to deepen our embodiment of ethical and equitable radical humanity; and to efficiently operationalize teaching, learning, community, and care.

About the Opportunity

As a Special Education (Inclusive Learning) teacher with Scholars Academies, you will be student facing the majority of the day. You will work closely with your grade team and the instructional leadership team to internalize, and in some cases develop curriculum; provide high-quality instruction; track and measure student progress; create a positive classroom and school culture, and to engage in reflection and continuous improvement. You will also be asked to act as a class advisor for our community of students, providing mentor and support during their high school career. As a team we will work together to prepare

students with the skills, strength of character and emotional well-being to excel academically, lead in their communities, and realize their best possible selves.

For more details about the role, please click [here](#).

What Qualifies You

- You have a Bachelor's Degree or higher, and hold or are in the process of attaining a NYS Special Education Certification
- Expertise with Middle School Math subject area
- You hold yourself to high professional and ethical standards
- You have experience with or are excited about researching best practices in anti-racist pedagogy
- You enjoy and/or have experience working with diverse populations of students and communities
- You believe that every student can and will learn when provided with a quality education
- You have demonstrated success in raising the achievement levels of students who historically have not had equitable access to education opportunities
- You are willing to be flexible in your role and adapt to school and student needs
- You are committed to continuous improvement and learning through professional development
- You have a minimum of two-year's experience in relevant educational positions

Areas of Leadership

- Demonstrate successful partnership with classroom or subject area co-teacher and utilize multiple co-teaching models in the classroom.
- Manage students' academic IEP goals and IEP programming. Develop data driven IEP teacher reports that include detailed IEP goals.
- Embodiment and effective modeling of our core values for students to exhibit and practice them
- Sets ambitious goals based on backward planning, demonstrating locus of control, and aligned with an overall vision for student success, content to be learned, personal knowledge of students, and overall instructional context
- Demonstrates deep knowledge of content and effective pedagogy, evidenced by clear and objective-driven instruction and meaningful student engagement through active learning practices
- Staff member sets clear expectations and institutes routines so as to establish and maintains a purposeful, supportive, and fun environment for learning, in which students feel safe, valued, and respected by adults and their peers
- Builds a classroom community where restorative practices are actively modeled and used to navigate student and community challenges
- Serves as Advisor to 10-15 students, motivating students across academic skill levels and cultivating students' social-emotional awareness and well-being
- Thoughtfully modifies and differentiates instruction to meet the needs of the individual learners
- Demonstrates a Team First mindset, through proactive contributions to the community, and advances his/her practice through reflection, development opportunities, participation in the professional community, and actively engaging families and community members

Thank you for taking the time to submit an application.
